Altus Strategies Plc
(“Altus” or the “Company”)

Dual Listing on the TSX Venture Exchange

Altus Strategies Plc (AIM: ALS / TSXV: ALTS), the Africa focused exploration project generator, announces that the ordinary shares of the Company (the “Shares”) will commence trading on the TSX Venture Exchange (“TSXV”) at market open on Wednesday 6 June 2018 (the “Listing Date”), under the symbol “ALTS”. The Shares will continue to trade on the AIM market (“AIM”) of the London Stock Exchange.

David Netherway, Chairman of Altus, commented:

“We are delighted to have secured the dual listing of the Company’s shares on the TSXV. This follows our successful Plan of Arrangement with Legend Gold for its strategic gold assets in Mali and recent C\$4.1m capital raise, which was largely placed with North American based investors.”

“The board and team at Altus collectively have a strong track record of making and monetising economic mineral discoveries across Africa. Altus currently has 19 exploration projects, diversified across six African countries (Morocco, Mali, Ivory Coast, Ethiopia, Cameroon and Liberia) and several commodities, including gold, copper, silver, bauxite, iron ore and zinc. We also have two active joint venture partnerships, with ASX listed Resolute Mining Ltd on our Pitangoma Est gold project in southern Mali and with ASX listed Canyon Resources Ltd on our Birsoke bauxite project in central Cameroon.”

“Our TSXV listing marks another significant milestone in the Company’s growth. We believe that Altus now creates a rare opportunity for North American based investors to participate in a well-established and purely Africa-focused project generator.”

Recent Non-Brokered Private Placement

No new securities of Altus are being distributed concurrently with the listing of the Shares on the TSXV. On 18 April, 2018 the Company completed a non-brokered private placement (the “Offering”) of 27,391,616 units (the “Units”) of the Company at a price of C\$0.15 (£0.0846) per Share for gross proceeds of C\$4,108,742.40. Each Unit is comprised of one Share and one share purchase warrant of Altus (“Warrant”) exercisable to purchase one Share for five years from the closing of the Offering (the “Closing Date”) at an exercise price of C\$0.30. The Company paid finders’ fees on a portion of the Offering, consisting of a cash fee of up to 6.0% of the gross proceeds received from the sale of the Units sold to investors introduced by the

finders and that number of non-transferrable share purchase warrants (the "Finder Warrants") equal to 5.0% of the number of Units sold to investors introduced by the Finders, each Finder Warrant entitling the Finder to purchase one Share for three years from the Closing Date at C\$0.225.

About Altus Strategies Plc

Altus is a London listed (AIM: ALS), diversified and Africa focused mineral exploration project generator. Through our subsidiaries we discover new projects and attract third party capital to fund their growth, development and ultimately exit optionality. This strategy enables Altus to remain focused on the acquisition of new opportunities to be fed into the project generation cycle and aims to minimise shareholder dilution. Our business model is designed to create a growing portfolio of well managed and high growth potential projects, diversified by commodity and by country. Altus currently has seventeen projects in six commodities across six countries. We aim to position our shareholders at the vanguard of value creation, but with significantly reduced risks traditionally associated with investments in the mineral exploration sector.
