## **About Altus Strategies Plc**

Altus is a London listed (AIM: ALS), diversified and Africa focused mineral exploration project generator. Through our subsidiaries we discover new projects and attract third party capital to fund their growth, development and ultimately exit optionality. This strategy enables Altus to remain focused on the acquisition of new opportunities to be fed into the project generation cycle and aims to minimise shareholder dilution. Our business model is designed to create a growing portfolio of well managed and high growth potential projects, diversified by commodity and by country. Altus currently has seventeen projects in six commodities across six countries. We aim to position our shareholders at the vanguard of value creation, but with significantly reduced risks traditionally associated with investments in the mineral exploration sector.

## **Cautionary Note Regarding Forward-Looking Statements**

*This news release includes certain statements that may be deemed "forward looking statements" with the meaning of applicable securities laws. All statements in this news release, other than statements of historical facts, that address events or developments that Altus Strategies Plc expects to occur, are forward looking statements and involve known and unknown risks, uncertainties and other factors. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential", "targets" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. The Company believes the expectations, estimates, forecasts and projections expressed in such forward looking statements are based on reasonable assumptions. However, investors are cautioned that such statements are not guarantees of future performance and the Company cannot provide assurance that actual results or performance will not differ materially from those projected in the forward looking statements. Factors that could cause the actual results to differ materially from those in forward looking statements include changes in market prices, exploration results and the interpretation of other geological data, the ability of the Company to obtain, maintain, renew and/or extend required licences, permits, authorizations and/or approvals from the appropriate regulatory authorities and other risks relating to the legal and regulatory frameworks in jurisdictions where the Company operates, competitive conditions in the mineral exploration sector, the activities of artisanal miners, whose activities could delay or hinder exploration or mining operations, the risk that third parties to contracts may not perform as contracted or may breach their agreements, the ability to attract and retain key management and personnel, terrorism, civil strife, or war in the jurisdictions in which the Company operates, or in neighbouring jurisdictions which could impact on the Company's exploration, development and operating activities, unanticipated costs and expenses, the continued availability of capital and financing on acceptable terms or at all, and general economic, market or business conditions.*
