**Altus Strategies Plc  
("Altus" or the "Company")**

**Extension to Due Diligence Period for Indiana Resources**

Altus Strategies Plc (AIM: ALS & TSX-V: ALTS), the Africa focused project and royalty generator, announces that it has granted ASX-listed Indiana Resources Ltd ("Indiana") an extension ("Extension") to the exclusivity period to now end on 14 June 2019, for completing due diligence on the Company's Lakanfla and Tabakorole gold projects ("Projects"). Lakanfla is located 6km southeast of the Sadiola gold mine in western Mali and Tabakorole is located in southern Mali.

Indiana has requested the Extension in light of the time required to process the substantial amounts of historical data which exists on the Projects. If publically disclosing the historical data, Indiana will be required to do so in accordance with ASX reporting standards.

The Extension is further to the announcements by the Company of 7 February 2019 and 13 March 2019 in respect of the signing of and an extension to a non-binding Terms Sheet for a joint venture ("JV") with Indiana on the Projects, whereby subject to entering a definitive agreement ("Agreement") with Altus, Indiana will have the option to earn up to an 85% interest in Legend Mali (BVI) II Inc., a wholly owned subsidiary of the Company and which holds a 100% interest in the Projects.

Indiana may earn its interest in the Projects by funding their exploration and development and in return the Company will receive milestone based cash and equity in Indiana, retain a 2.5% Net Smelter Return royalty on the Projects and be the operator of the JV during the initial earn-in periods. The Agreement remains subject to due diligence and other conditions precedent.

**About Altus Strategies Plc**

Altus is a London (AIM: ALS) and Toronto (TSX-V: ALTS) listed project and royalty generator in the mining sector with a focus on Africa. Our team creates value by making mineral discoveries across multiple licences. We enter joint ventures with respected groups and our partners earn interest in these discoveries by advancing them toward production. Project milestone payments we receive are reinvested to extend our portfolio, accelerating our growth. The portfolio model reduces risk as our interests are diversified by commodity and by country. The royalties generated from our portfolio of projects are designed to yield sustainable long term income. We engage constructively with all our stakeholders, working diligently to minimise our environmental impact and to promote positive economic and social outcomes in the communities where we operate.

**Cautionary Note Regarding Forward-Looking Statements**

*Certain statements in this news release contain forward-looking information. These statements address future events and conditions and, as such, involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the statements. Such factors include without limitation the completion of planned expenditures, the ability to complete exploration programs on schedule and the success of exploration programs. Readers are cautioned not to place undue reliance on the forward-looking information, which speak only as of the date of this news release.*
